

Approvals and accreditations

International Plastic Systems is a customer-led company with a single vision:

to be the Number 1 Partner for our Customers, our Suppliers and our People.

The company is fully compliant with the latest quality standards and is committed to minimising the impact of our business on the environment.

Quality management system ISO 9001:2000

International Plastic Systems operates a quality management system which has been assessed in accordance with ISO 9001: 2000. Accreditation was first obtained in 1993. A copy of our certification is available upon request. In addition, our suppliers also operate similar quality management systems, and we can provide you with details of their approvals upon request. Please contact us if you would like to receive further information.

Environmental management system ISO14001

International Plastic Systems operates an environmental quality management system that was assessed in accordance with ISO14001 in 2002. A copy of our certification is available upon request.

Investor in People (I.I.P.)

International Plastic Systems has been recognised as continuing to meet the requirements of the national standard for effective investment in people (I.I.P.). Recognition took place in 1995. A copy of our certification is available upon request.

The Pressure Equipment Directive (P.E.D.) 97/23/EC

The Pressure Equipment Directive (P.E.D.) 97/23/EC became law throughout the European Union with effect from 29th May 2002. International Plastic Systems and its suppliers have assessed their products in accordance with the requirements of the P.E.D. We can provide documentary evidence of the conformity assessment route for the products we supply that fall within the scope of requirements of the P.E.D. If you would like further information on the P.E.D. and how it affects the products we supply, please contact our technical department for assistance.
